It's hard to imagine that just 25 years ago, Berlin was a city split (分开) into two by the Berlin Wall. I'll never forget how people were excited as the Berlin Wall came down in 1989. Since then, Berlin has become one of the coolest cities in Europe. Here are the main reasons why I think Berlin is cool.

**It's affordable.** Berlin has cheap hotels and everyday objects. You don't have to worry about spending too much money when visiting Berlin.

**It has fantastic festivals.** Berlin knows how to give parties, and there is a festival here every month of the year. Perhaps the most famous is the Berlin International Film Festival.

**It has great architecture** (建筑设计). Berlin has beautiful architecture of its own. The Brandenburg Gate, built in the 18th century, is one of the city's most famous buildings, symbolizing

more than 200 years of history. The TV Tower is as good as the Eiffel Tower in Paris and the London Eye.

**The art scene is flourishing** (繁荣). Berlin is a city of living art. Artists are allowed to create works of art on the sides of buildings.

If you want to visit an affordable European city with culture and lots of colors, Berlin is the place to be. What are you waiting for? Get to Europe's coolest city before everyone else discovers it.

Without a man, there would be no "happiest place on earth", also known as Disneyland. That man was Walt Disney.

Disney was born in 1901 in Chicago, Illinois. As a child, he enjoyed drawing and even sold his pictures to his neighbors. In 1918, Disney joined the Red Cross and drove an ambulance (救护车) in France during World War I (第一次世界大战). After the war ended, Disney started making short cartoons in Kansas City, but soon he used up all his money. He decided to get a job in Hollywood. He went to California with only \$20 with him.

It took a while, but Disney began to enjoy success with his cartoons. He created Mickey Mouse, the most famous cartoon character ever. Then in 1937, *Snow White and the Seven Dwarfs* came out and it was a huge success. During the following years, Disney made many more movies that we still watch today, including *Pinocchio*, *Dumbo*, and *Bambi*.

In the 1940s, Disney had an idea of building a fun park for families and the idea grew bigger and bigger ... Years after Disney first had the idea, the first Disneyland opened in 1955 in Anaheim, California. At that time, the ticket cost a dollar. By 1965, 50 million visitors had visited Disneyland.

Disney died in 1966, 5 years before the opening of his next dream park, Disney World in Lake Buena Vista, Florida.

If you ever visit one of the Disney parks, or go to a Disney movie, think of the man who started it all.

Who wants to spend *24 Hours in the Desert*? It's the name of an unusual book. At the beginning, this book describes what a desert is, and then it explains the different kinds of deserts. This book mainly talks about the Sahara Desert, because it is the world's largest desert. It has an area of about 3.5 million square miles in northern Africa!

Morning life in a desert is described next. In this part, wind, sand, water, and plants relative (有关的) to the desert are discussed. Afternoon life, evening life, and nightlife in a desert are also described. Did you know that the Sahara Desert holds the record for the highest air temperature? Did you also know that sand from the Sahara Desert can ride the winds all the way across the Atlantic Ocean and reach a beach in Florida, USA?

Near the end of the book, one page gives some facts about the Sahara Desert. In the rest of the book, you can find a glossary (术语汇编), a "find out more" part and an index (索引). The "find out more" part gives some books and websites to find out more information about the Sahara Desert.
