Hello, everyone! I'm glad to be here to talk about some differences between the English students and the Chinese students. In England, students usually take the school bus or ride bikes to school. After school, they often clean up the garden and look after the pets. What's more, they have to make pocket money by working in their free time. However, in China, students often go to school in their parents' cars. They spend most of their time on study after school and hardly do chores at home. Also, parents provide the pocket money for their children. Different countries have different cultures. I think we should study hard, but we should practice living skills at the same time.

Passage 2

假如你们班要举行一次英语演讲比赛，请根据下表内容用英语写一篇发言稿。

| | |

Hello, everyone! It's important for us students to find some time to exercise. So we should exercise in our free time. However, I found that now many students seem to study all day. They think taking exercise is a waste of time. And some students think they have so much homework to do every day that they have no time to exercise. But in my opinion, taking exercise is a good way to relax and keep fit. And a healthy body can help us study better. And we can always find time to take exercise if we want to do. So let's go out to exercise together.

Passage 3

随着网络技术的不断发展，人们传递情感的方式也在不断变化。假如你叫王强，上周你就“使用纸质卡片还是电子卡片？”在班级展开了一项调查。请你给 China Daily 报社写一封信，介绍此次调查的结果并发表你的观点。

| | | |

要求: 1. 表达清楚, 语法正确, 上下文连贯; 2 必须包括所有相关信息, 并作适当发挥

Dear Editor,

I am writing to tell you about the survey I've made on "Using paper cards or e-cards?" in our class.

About 30% of the students want to use the paper card. Firstly, people can make them by themselves and they can show people's real feelings. Secondly, people can take them everywhere they go and keep them for a long time. Thirdly, people don't have to read them through computers.

However, about 70% of the students prefer to use e-cards. E-cards can carry much information and people can send them quickly. Besides, using e-cards can save paper so that the environment can be protected well. What's more, people can make different kinds of designs that they like.

As for me, I like to use both of the two kinds, because when I am free, I can use the paper cards, but when I am busy, I can use e-cards.

Yours sincerely,
Wang Qiang

Passage 4

你校决定组织学生到医院照顾病人, 以此作为教育学生的一种方式。这件事在学生中引起了热烈讨论。请你把下表中国家的不同意见整理成一篇报道报告给学校, 并表达自己的想法。

注意: 短文应包括表中的所有内容, 可适当发挥, 但不能主句翻译

参考词汇: 尊重 respect

Some students say most of them are the only child in our family. We have been given much love. We are not able to do hard work. To look after the patients is a good way to teach us how to do difficult jobs. By looking after the patients, we'll learn to understand and respect others' work.

On the other hand, some students think taking care of patients is dirty. It's easy for us to get sick. They don't think the job is suitable for us. We have more important things to do. Looking after brothers or sisters at home is a good idea.

In my opinion, it's quite a good way to develop our independence, but we should be careful not to get sick when caring for patients. I think the school should think about this problem.

Passage 5

注意: 短文应包括表格提示的所有内容, 可适当发挥

Great changes haven taken place in our studies since our school began to carry on exploring learning strategies. In the past, teachers kept on explaining the language points in class. We students just listened and took some notes. So we didn't have enough time to think about problems by ourselves. We had to do much homework after class.

But now teachers show the problems to us first, then we discuss them for a while in pairs or groups. We try to find out the ways of solving problems, through which we've learnt how to cooperate with others. After class, we can have different activities. For example, we can read books we like, go to the library or use the Internet for useful information and so on.

In a word, exploring learning strategies is very good for us. Now we are the owners of our study and we're happy.

The students of our school have different ideas about if we would like to take part in the English summer camp.

Some agree while others don't. Those who want to take part in the activity think they can relax themselves in the camp. Also they can improve English and make lots of friends. However, some of the students are not interested in English. They think it's too long to stay away from home. Their parents won't allow them to do so.

As for me, I don't want to take part in the summer camp. I have to go to lots of lessons during summer holiday, so I have no time. Besides, I like to stay at home better.

| 课外阅读的好处 | 1 更多地了解世界 2 学会如何思考 |

| | |

At present, many students don't do any reading after class. Here are several reasons. Firstly, a lot of students have too much homework so they have little time for reading. Secondly, many students don't have the habit of reading. Thirdly, some students spend their spare time on TV or on the Internet.

However, it's good for us to read. Through reading we can learn more about the world. Reading can also help us think better and make our life more colorful.

In my opinion, teachers should give students more time to read. And students can join a reading club to read more.

Is it OK to tell white lies?

Last week our class had a discussion on whether it is OK to tell white lies. The students have different opinions.

Some think it is all right to tell white lies out of kindness. Besides, white lies can often help people get on well with each other. Sometimes, they may make one more confident.

However, some people take telling lies very seriously. They believe that white lies are lies after all. They do harm to friendship. What's more, lies never go far.

In my opinion, I have to day that all people lie at times. As long as we're true to each other, lies, whatever kinds they are, won't stand in our way.

Passage 9

Life is just like a mirror, you smile at it, and it smiles at you, too. 请你以“Learn to Smile”为题，根据下表所列的要点写一篇 100 词左右的文章。

Learn to Smile

I remember a song by Westlife, the first line of it is “Just a smile and the rain is gone.” Do you like smiling? I think you should learn to smile.

First, learn to smile at yourself when something unpleasant happens in your life. If you fail an exam or you are misunderstood by your friends, don't be sad. Just smile at yourself. Smiling at yourself can bring back your confidence. Sometimes the one who beats you is not others, but yourself. And smile can also keep you healthy.

Secondly, learn to smile at others. It will make you communicate better with others. Smiling at others makes yourself happy as well.

In a word, smile is a kind of language belonging to everyone. It passes love and friendship and helps shorten the distance between you and other people. Living with a smile, every day will be great.

Passage 10

目前，学生考试作弊现象严重，请围绕以下要点谈谈其中的演员以及个人的看法和建议。

原因：1 考试泛滥；2 自身勤奋不够；3 把大量的时间用在上网和玩游戏上；4 为了骗取家长和老师高兴。

看法与建议：1 作弊有害；2 要做人诚实，发奋学习；3 学校应减少考试。

要求：词数 80-100；围绕要点可适当发挥

At present, a number of middle school students have picked up a bad habit—cheating in exams.

There are four main reasons. First, schools have given students too many exams, some of which are too difficult. Second, some students are not hard-working enough and they don't work hard at their lessons. Third, some students waste a lot of time playing games or using the Internet. So they don't have enough time to prepare for the exams. Finally, students have to do so to make their teachers and parents happy.

In my opinion, cheating in exams does great harm to our study. We students should be honest and hard-working. Only in this way can we improve our study and make progress. Besides, our teachers should offer us fewer exams and more time to study for ourselves.
